1. Recently, two new radio-transmitter antennae have been put up in the area north of the Fortezza Pass section of the Rijeka-Boljun road in Istria. One antenna is on Mt. Ravna Strane and the other on Mt. Cervena Vrh. These antennae, indicated as A and B on Sketch 1, will soon be used for broadcasting the programs of Radio Rijeka.
2. The transmitting power of the present radio station at Rijeka, sketched in Sketch 2, will soon be increased from two and one-half to 22 kilowatts. The station's antennae are located in the Kosala Cemetery; one is a regular steel tower and the other is the steeple of the Kosala church. The station's power plant is located in the former Palazzo del Governo (Government House). Its editorial offices are in the former headquarters of the Italian Fascist Party in Piazza Dante. The editorial offices have a small transmitter-receiver which is in continuous contact with Belgrade.
